## Rookie Ball

- 1 All innings pitched with a pitching machine will have the machine placed 40-46 feet from the back of home plate.
- 2 A circle; five feet in diameter will surround the machine.
  - 2.1 If a batted ball hits the machine, or rolls to a stop in the circle, the ball is dead; the batter is awarded first base, and any base runner is moved who is forced to advance by the batter being awarded first base. If the ball directly hits the machine, only forced runners advance. If the ball is impeded in the circle (i.e. pitcher touches and stops the ball) all runners advance.
    - 2.1.1 If the ball goes through the circle without touching, the legs, coach, or bucket, than it is a live ball, and is played normally.
    - 2.1.2 The circle includes the chalk that creates the circle. If a fielder plays the ball on the chalk line than the ball shall be deemed a dead ball, and the batter is awarded first base.
    - 2.1.3 Any plays/outs made prior to the ball entering the safety circle stands. (Example: ball is batted, play is made to 1st, the batter is out. Attempt is made to throw out a runner coming into home. Ball hits a player and bounces into the safety circle or hits the machine. Batter is out, runner is safe. Play is dead.
- 3 The pitching machine speed will between 35-40 mph.
- 4 Setting of the machine will be done only at the top of the inning, unless, in the opinion of the plate umpire, the machine has drifted out of adjustment. Any mid-inning adjustments must be made by the umpire or his designate. The coach of the hitting team may request a review of settings; however, the umpire has the final say in the settings.
- 5 The operator of the machine will be a coach or a volunteer. The operator of the machine **may not offer coaching assistance.**
- 6 Pitching Machine Rules
  - 6.1 Each batter receives 5 **hit-able** pitches. Three swings without contact during the 5 pitches and the batter is out. If the batter has not hit after 5 pitches, batter is out.
  - 6.2 The umpires will be set behind the plate behind the catcher. The call by the umpire will follow in the format of pitches and strikes. I.e. "one pitch/one strike, 3 pitches/1 strike, 4 pitches/0 strikes" batter is out after pitch 5 or strike 3.
  - 6.3 If the batter fouls, a strike will be called for the first 2 fouls. If the batter fouls on the 5<sup>th</sup> pitch, the batter will be given an additional pitch until the ball is hit or the pitch is missed (3<sup>rd</sup> strike) or it is declared a hit-able pitch by the umpire (equivalent to 5<sup>th</sup> pitch).
  - 6.4 NO PITCH is declared when:
    - 6.4.1 A pitch bounces on or in front of home plate or a ball is too high for the batter to hit. However, if the batter attempts a swing, it will be a strike.
    - 6.4.2 A pitch causes the batter to jump out of the batter's box to avoid being struck by the pitched ball.
  - 6.5 A NO PITCH will not be counted as part of the 5 pitches.

6.6 The umpire must declare the last or 5<sup>th</sup> pitch to the batter, prior to the ball being placed in the pitching machine. If the ump fails to do declare a 5<sup>th</sup> pitch, a request of a re-pitch shall occur *on appeal of the at bat coach only*.

7 Playing Rules:

7.1.1 Pitcher may stand on either side of the pitching machine, outside of the safety circle and even with the release point of the machine. Once the pitch is delivered, the pitcher may move anywhere, including in front of the machine.

7.1.2 Pitcher must wear a helmet when pitching machine is in use.

7.2 Base Runners cannot leave the base until the batter makes contact with the ball. If an infraction occurs, the ball will be declared dead and runners may not advance. One (1) warning will be issued and for any further infractions thereafter the runner will be called out. (Each team may receive 1 warning).

7.3 No stealing allowed, applies to pitching machine and player pitching

7.4 There will be no bunting, applies to pitching machine and player pitching

7.5 Base runners may not advance on a passed ball or a pitched ball returned to the pitcher by the catcher.

7.6 Catchers are required to wear a mask with throat protector, helmet, chest protector, shin guards. Catchers are to set up in the regular catcher position in front of the umpire.

7.7 Batting – when 3 outs are made, inning is over.

7.8 MERCY RULE- maximum of 5 runs per inning with the pitching machine. (For mercy rule with live pitching see rule 8.2)

7.9 All batters must bat in assigned order. Out of order batter is out on appeal of a defensive coach/player. Appeal must be lodged before the next batter has completed their at bat.

7.10 Fielded team consists of 10 players. A team must have a minimum of 8 players, or game is forfeited. Teams are required to have 8 players for playoff games. If both teams do not have enough players, both teams forfeit the game.

7.11 If a team has 8 players, the inning is over after every batter has hit, no batter can hit twice when the team does not have 9 players.

7.12 Game is a maximum of 6 innings long. Game is deemed official after time has expired or 4 innings have been (3 ½ innings if home team leading).

7.13 Curfew: No new innings starts after 1:45 minutes of scheduled start time. Dead ball at 2 hrs. of scheduled start time. A new inning has deemed to start immediately upon completion of previous inning.

7.14 Courtesy runner can be allowed for a runner after 2 outs and the runner being replaced is the catcher in the next inning.

7.15 To speed up game when using pitching machine is used, a bucket of balls will be placed at the pitching machine for the pitching coach. Missed balls will be

collected by the catcher and thrown back to the pitcher at the end of each batter's turn.

- 7.16 Time is granted on defense rule. (I.e. After a batted ball, time is granted to the defense when the ball is being returned to the pitcher. (ie the defense is no longer trying to get an out) – general guideline is if player is less than 1/3 of the way to next base, and ball has been sent back to pitcher – even if pitcher drops – the play is over)
- 7.17 At the rookie ball level, we are trying to encourage the players to make plays. In an attempt to foster this culture players can not advance on overthrows to a base. (For example: While a runner is approaching second base, the defending team throws the ball over second base. The play is dead.) An evaluation of this rule will take place after 5 weeks into the season to see if the rule can be repealed If it is felt that the caliber of rookie ball warrants rule will be eliminated, and the ball will remain live.
- 7.18 Batters at Rookie Ball must drop the bat and not throw it (intentionally or unintentionally) upon hitting the ball. Penalty, each team shall be entitled to one warning per game. After the warning, any further offences by a team shall result in the batter being declared out, the ball being dead and runners returning to their bases.)
- 7.19 Infield fly rule does not apply.
- 7.20 **Equitable play rules.**
- 7.20.1 For batting: players must be rotated equitably so that in a month they get approximately the same at-bats. As an example, each month the rotation is set for that month and players rotate equitably for that month (i.e. 1 moves to 2 after game 1). The line-up will continue the next game at the ending point of the prior game. (I.e. if the 5th batter was the last out of the previous game, the 6th batter will bat first in the next game.
- 7.20.2 For fielding: players must be rotated equitably between infield and outfield. Each player must play at least 1 of the first 3 innings in the infield.
- 7.20.3 No player can sit out an inning on defence a second time until everyone has sat out once.
- 7.21 Defensive Playing Roster
- 7.21.1 Teams may use 10 fielders on defence. The extra defensive has to play in the outfield.

*After week 5, in conjunction with convenor, coaches and the VP of baseball, it will be determined whether or not to include pitching for part of the game for the balance of the season. Factors that*

will play into decision will be pitching potential on all teams, average age, experience and overall skill level of rookie ball for given year.

If it is decided to go to pitching, the following rules will go into effect.

- 8 Games will be played with pitching machines in the following rotations, **subject to convenor discretion on timeframes with coach consultation**:
  - 8.1 Week 1 to week 7 : pitching machine.
  - 8.2 Week 7 to end: 2 Innings pitching to start the game, remaining innings pitching machine; mercy is 3 runs when pitching
- 9 Pitcher player limitations are per following rotations:
  - 9.1 Full Season:
    - 9.1.1 1 inning max and use minimum of 3 pitchers in a 2 game week
  - 9.2 Minimum pitcher usage (The intent of these rules is to ensure that proper pitcher development occurs in each team. In order to develop pitchers at the Modified Rookie ball level the following minimum pitcher usage rules shall occur.)
    - 9.2.1 A minimum of 3 pitchers must be utilized by each team for a minimum of 2 innings over a *1 week period*. This rotation requirement applies only during rookie modified format. The one week period goes from Sunday to Saturday.
    - 9.2.2 In order for a pitcher to be counted as part of the minimum 3 pitcher rotation mentioned in para. 2.2.1, the pitcher must pitch to a minimum of 3 batters during the inning/game. If the pitcher pitches less than 3 batters, the pitcher cannot be counted as part of the minimum rotation requirement. However, pitcher limitation per para. 2.2 still applies. (Example: If a pitcher enters the game and pitches once to batter and is then removed, he can pitch in the next game, but that pitcher's rotation in that game cannot be counted as a part of the weekly minimum pitcher rotation).
  - 9.3 If live pitching is put into effect, playoffs will stay with the pitching rules.
- 10 Call Ups:
  - 10.1 All call ups are to be done through the Division Convener and a TeamSnap Group will be created.

### 17.2 Completion of Batter

17.2.1 If a pitcher reaches the pitch-count limit for their age, or day(s) of rest threshold while facing a batter, the pitcher may continue to pitch until the batter reaches base, the batter is retired, or the third out is made to complete the half-inning. The pitcher would be allowed to play the catcher position provided that pitcher is moved, removed, or the game is completed before delivering a pitch to another batter. If a player delivers 41 or more pitches, and is not covered under the threshold exception, the player may not play the position of catcher for the remainder of that day.
